## ABOUT ME

I focus as a software developer with a predominant responsibility on front- and back-end web development. My primary languages include Python with the Django framework, Javascript with the React framework, HTML, CSS with Bootstrap/Tailwind, and MDB for further style benefit. The "Attendance Face Recognition Class Attendance Registry System" machine learning project I completed gave me another motivation and opportunity to pursue a career in data science and machine learning. I'm always eager and motivated to learn new things and broaden my skill set. I am also a writer, specifically for articles.

## WORK EXPERIENCE

### ABYA

Volunteer, internship | Intern  
Nairobi, Kenya  
2023-05-01 | Currently working here

I am thrilled to have secured a position within African Blockchain Youths Ambassadors (ABYA), a distinguished organization dedicated to advancing the growth and adoption of blockchain technology in Africa. Focusing primarily on empowering young individuals and university students, ABYA plays a pivotal role in nurturing the blockchain ecosystem on the continent. During my tenure, I had the privilege of spearheading the development of various blockchain projects, including the creation of smart contracts and other cutting-edge applications. This experience provided me with invaluable insights and deepened my understanding of the transformative potential of blockchain technology. I am honored to have been part of ABYA's mission to drive innovation and contribute to the expansion of blockchain across Africa.

## EDUCATION

Multimedia University of Kenya

I began my educational journey at [Primary School Name], where I completed my Kenya Certificate of Primary Education (KCPE) with an impressive score of 386 marks. Building upon this foundation, I continued my academic pursuits at Utumishi Boys Academy, where I excelled in my studies and obtained a remarkable grade of B+ in the Kenya Certificate of Secondary Education (KCSE).

Driven by my passion for technology and software development, I enrolled at Multimedia University of Kenya to pursue a Bachelor's Degree in Computer Science. I am eagerly anticipating my graduation in November, having successfully completed all my coursework. Throughout my academic journey, I have honed my skills as a software developer, acquiring a unique set of abilities that enable me to create innovative solutions.
